

ANNUAL INTERNATIONAL SCIENTIFIC CONFERENCES, GIS IN CENTRAL ASIA – GISCA 2022 AND GEOINFORMATICS – GI 2022

online/onsite

"DESIGNING THE GEOSPATIAL ECOSYSTEM"

The main objectives of this event are to bring together academics, professors, researchers, and specialists in the field of GIS from Central Asia and other countries, to orientate scientists working in the field of socio-ecological systems to interdisciplinary geospatial doctoral studies and research, as well as expanding the involvement of professors and doctoral students working in the field of geoinformatics in the international community, strengthening the internationalization of universities and research institutes, encouraging international cooperation, and knowledge exchange in GIS education.

The GI 2022 conference is being organized at the “TIAME” NRU within the Erasmus + NiCoPA project.

All information on registration, conference program, and visa procedures in GI 2022 can be found on the official website of the conference: <http://giconference.tiame.uz/>

The main topics of the conference:

- GIS for regional sustainable development;
- Development of Geospatial Infrastructures and Ecosystems;
- GIS for management in the field of environmental protection, the prevention and elimination of emergency situations & public health;
- Agriculture, water resources management and other application domains;
- New trends and technologies in geodesy, cadastre, cartography and land management;
- Cultural and natural heritage;
- Professional and continuing education in the field of geoinformatics;
