The website of North Kazakhstan State University (NKU) features a section dedicated to the "New and Innovative Precision Farming Program (NINOPA)". The page highlights the program's focus on modernizing agriculture through precision technologies and its implementation in various countries. It also mentions the involvement of international partners like the University of Applied Sciences (HTWK) in Leipzig, Germany, and the University of Technology and Control in Bulgaria.

**Project Partners:**

- North Kazakhstan State University (NINOPA)
- University of Applied Sciences (HTWK) in Leipzig, Germany
- University of Technology and Control in Bulgaria
- University of Technology and Control in Turkey
- University of Technology and Control in Poland
- University of Technology and Control in Czech Republic

**FACULTY NEWS:**

Aleksandr A. T. Doctor of Technical Sciences, Professor, Head of the Department of Design and Development of Electronic Devices, has been elected a member of the International Association of Internal Communication on all issues of the project implementation at the university.
